Driving India's Procurement Efficiency

NOVEMBER 2025

## FROM THE CEO's DESK

Dear Stakeholder,

At GeM, our commitment is clear, to build a public procurement ecosystem that is efficient, transparent and inclusive for every user.

Integrity and responsible governance remain central to how we design, operate and strengthen the platform. We continue to refine system controls and adopt modern monitoring tools that help ensure smooth, rule-based and trustworthy procurement for all stakeholders.

We believe that vigilance safeguards progress and therefore our focus remains on strengthening system controls, eliminating bottlenecks and adopting advanced monitoring frameworks that make public procurement safer and more resilient.

We continue to invest in technology that prevents risks before they arise and empowers every user to engage with confidence.

Together with our stakeholders, we are shaping a future-ready platform where trust is built into every step of the procurement journey.

By staying committed to ethical practices and responsible decision-making, we ensure that public procurement on GeM is efficient, transparent and inclusive.

Warm regards,

Mihir Kumar
